Research Achievements :

Research Inputs Contributing to New Initiatives and Social Development :

1. Dr. (MS.) Samhita Das deciphered the contribution of Sanskrit language & literature during the period of Princely Tripura where the monarchs bestowed unflinching stress for its all-round development and propagation. Basing on this theme I tried also to reveal the 'style and status of women as seen in the Mahabharata." (Mahabharate Nari Pragatir Gati-Prakriti) which I had submitted as my project at the UGC Academic Staff College, Jadavpur University during my orientation programme. In many other occasions I have highlighted the excellence of ancient India's high-soaring thoughts and feelings embedded in Sanskrit.
2. Dr. Samhita influences her students to be keen in the welfare of all through the guileless glittering of humanitarian height of mentality. In the illuminating light of thought of my treatise I always encourage my students and friends to conjoin sacred endeavours as myself feel, for the well-being of all people and social development through Sanskrit effulgence laid in our ancient culture and civilization of Mother India.

Dr. Samhita Das
